Subject: RE: 1:00 report out

Margaret,
Thanks for the info. Since your folks are on my team while out here, we are also coordinating updates. FYI. Thanks.

Subject: 1:00 report out

During the morning of September 9, the four Air Monitoring 6EN field personnel have been monitoring downwind of the Lyondell-Basel and Pasadena refineries, along Lawndale St, using handheld monitors and FLIR cameras. They did not detect VOCs greater than 300 ppb at any point. This afternoon, they plan to monitor around the Magellan Terminal complex.
